Caffeine	NO	NO
Other: mustard, celery, garlic, onion, BHA, BHT, TBHQ, Vitamin E, chocolate, aspartame, beef or pork and their derivatives	NO	NO

\* The production of LACTROL<sup>®</sup> occurs in an enclosed area of the plant that is separate from other production processes.

The use of the materials that are defined as “may be present at the plant” is intermittent and there are controls in place to ensure that these materials do not mix with anything involved in the production of LACTROL<sup>®</sup>.
